Project Name	Visualization Tool for Electric Vehicle Charge
Maximum Marks	5 Marks

Solution Architecture Diagram:

Provide a high-level visual representation of your solution's architecture. Use the structural layout below as a template to mapout your Presentation Layer, Application Layer, and Data Layer. Fill in the specific technologies and components for your project directly into the boxes to create your architectural diagram.

Component Description Table

Component Name	Description / Role in Architecture	Technologies Used
Presentation Layer	Provides the user interface for registration, assessment, and viewing reports. Handles client requests and routes them to backend services.	HTML, CSS, JavaScript, Streamlit Flask
API Gateway	Processes user data, calculates well-being score, and generates personalized recommendations.	
Core Logic Service	Stores user details, assessment responses, scores, and reports securely.	Python, Scikit-learn, Pandas
Database		MySQL
